Overview

This report provides a comprehensive summary of landscape maintenance and enhancement activities performed at Grand Oaks, covering site visits conducted on May 23, May 28, and June 4, 2025. The objective of these visits was to evaluate ongoing maintenance, assess completed work, and propose improvements to further enhance the beauty, safety, and functionality of the community's outdoor spaces.

Each observation and recommendation is based on a detailed property walkthrough, guided by current site conditions, seasonal demands, and long-term landscape planning objectives.

Completed Maintenance and Accomplishments

Turf & Plant Health

• Amenity Center Turf: The turf at the amenity center continues to be in excellent condition. Its lush, green appearance reflects the consistent and effective maintenance practices implemented by the team.

• Floral Displays: Seasonal plantings such as agapanthus, blue daze, and roses at key locations (including the mail kiosk and small playground) are thriving, contributing vibrant color and aesthetic value to community common areas.

Pond Work

- The following ponds have been successfully completed and inspected: 1, 2, 3, 4, 5, 7, 8, 12, 14, 15, and 16. These areas have received necessary attention such as turf care, debris removal, and edge detailing.
- Maintenance teams were scheduled to work on Ponds 13, 10, and 9 on June 4, pending weather conditions.

Sod & Bed Preparation

- Summer Bay Sod Installation: Fully completed and now part of the community's enhanced green coverage.
- Amenity Clubhouse: Flower installations have been completed, and sod installation is on track for completion by the end of June 4.
- Pond Bed Cleaning: The bed along the pond near the clubhouse has been thoroughly cleaned and reconditioned by the production team.

Ongoing and Routine Maintenance

General Maintenance

- Weed treatment has been recently completed around the clubhouse, contributing to improved curb appeal and plant health.
- Crews continue to focus on regular maintenance tasks including mowing, edging, pruning, and irrigation checks across the community.

Weather Impacts

• A recent period of poor weather has led to delayed start times for some teams, which may result in some services extending into the following day. This note is provided in anticipation of potential resident concerns.

Tree Detailing

• Crews are a bit behind on tree sucker removal and moss removal from crape myrtles near the amenity clubhouse. These have been escalated to priority status.

Enhancement Projects and Proposals

As part of our forward-looking efforts, several proposals have been initiated to address both aesthetic and functional needs:

Tree Removal

• A large oak tree near the pool deck is in noticeable decline and presents a safety hazard. A proposal has been submitted for its removal in accordance with safety best practices and community guidelines.

Mulch Installation

An estimate has been completed for mulch installation at the community entrance. This will
help to refresh the visual impact of the entry point and suppress weed growth around decorative
plantings.

Clubhouse Drainage

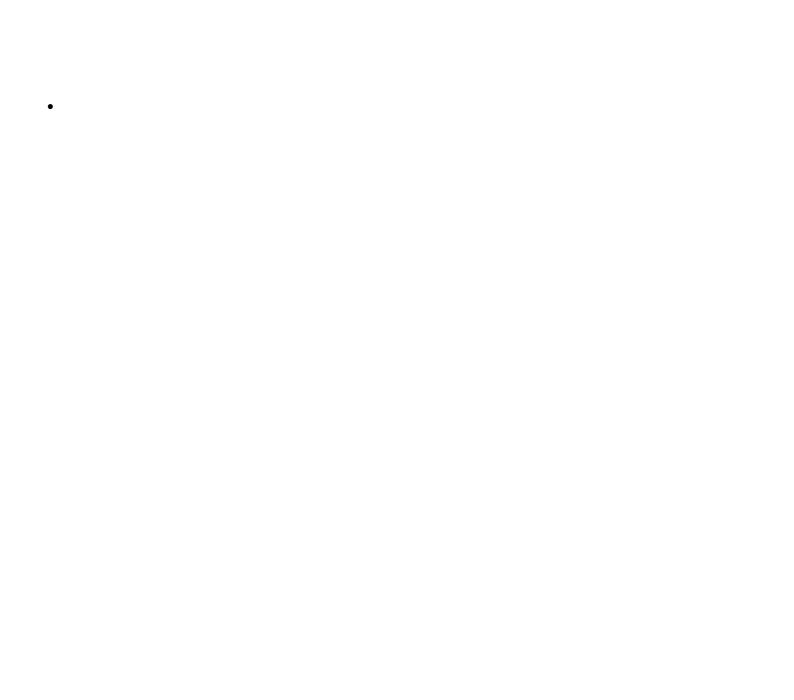

• A new proposal addresses a drainage issue near the clubhouse, which aims to improve stormwater flow, reduce pooling, and minimize long-term erosion risks.

Additional Observations & Notes

- Irrigation Maintenance: The irrigation team has been scheduled to inspect and address needed adjustments or repairs as of May 28.
- Playground Landscaping: Some shrubs at the playground entrance are showing signs of healthy recovery.
- Enhancement Work: The enhancement crew is actively on-site, progressing through approved upgrades and installations as scheduled.

Conclusion

The Grand Oaks landscape continues to evolve through a combination of routine care, strategic enhancements, and responsive maintenance. We remain committed to maintaining high standards and transparent communication, ensuring that the outdoor environment reflects the quality and pride of the Grand Oaks community.
